Registration

7:30AM

Breakfast

7:30AM - 8:30AM

**Mind the Gender Gap:
Major Depressive Disorder (MDD) in Women and Men**

Mind the Gender Gap: Major Depressive Disorder (MDD) in Women and Men

Learning Objectives

Upon completion of this program, participants should be better able to

- Understand the prevalence and epidemiology of depression in men and women for new-onset and recurrence of depression
- Recognize hormonal, psychosocial, neuroanatomy, and functional neuroimaging differences in men and women
- Evaluate treatment considerations that may be helpful in choosing among different treatment options for patients with depression

Program Description

Major depressive disorder is a major source of disability worldwide, and there are gender-specific differences in rates and symptom presentation. Biologic, psychosocial, and gender-role differences between women and men may account for differences in depression prevalence and presentation. Identification and treatment of major depressive disorder may be enhanced by understanding the distinct gender-specific needs and concerns of women and men. During this presentation, a key thought leader will review the prevalence and epidemiology, discuss the difference in presentation and symptomatology in women versus men, present the biologic differences, and provide gender-specific considerations for the treatment of major depression.

This medical presentation is intended only for invited Health Care Professionals for whom the information to be presented is relevant to their practice. We regret that spouses or other guests cannot be accommodated. As a result of enacted state regulations, food, beverage and/or meals will not be provided by Lilly USA, LLC for Health Care Professionals from the states of Minnesota, Massachusetts and Vermont.

Lilly USA, LLC, Avant Healthcare Marketing, and our contracted third parties will not sell or rent your personally identifiable information.

Please Note: we are unable to offer continuing medical education (CME) credits for attendance at this program.
